01

the bowl hole (its fun to say)

Using a diamond step drill bit, drill a half an inch (give or take) deep.

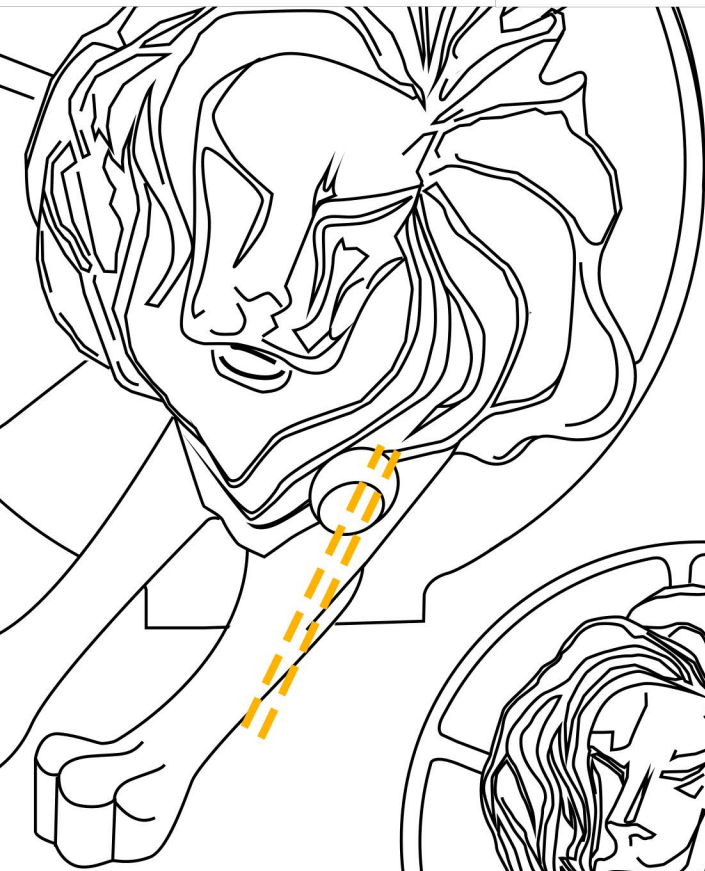

Congrats on the Cannes Lion! Well deserved from perseverance and hard work. Lucky for you this won't be as hard. Eye it out, and trust your own preference. Enjoy the full benefits from your award.

02

The Carb

Using a smaller regular bit (your preference). Drill a hole through the right side arm.

03

Mouth piece

Drill hole using a regular bit. Stop when you hit your bowl hole (now it sounds dirty)

04

you get the rest

I recommend using a mesh to smoke so your not inhaling ash.
